

# Mandatory Math Summer Review Assignment

**Math Website** [www.ALEKS.com](http://www.ALEKS.com)

**Student Username & Password:** This information is on the form your child received after taking the initial ALEKS Exam at ECG. If you have misplaced their login information, please email [justin.combs@ct.gov](mailto:justin.combs@ct.gov)

**Assignment Details:** Over this summer, students **must** work on ALEKS each week. A good pace is to have them work on ALEKS.com for a minimum of 1 hour per week and during that week they should complete at least 3 topics. Students should have at least 8 additional hours and 24 additional topics in ALEKS Algebra I completed when they arrive on the first day of school. This is in addition to the topics they earned during the ALEKS Initial Assessment they took earlier.

**Additional Assignment Requirements:** As evidence of summer learning, **a binder** of the completed summer work must be kept and follow these guidelines: **A)** Each Page clearly labeled with name and date **B)** Name of the ALEKS topic and the original problem written out **C)** All steps working towards the solution shown neatly **D)** Answers circled

**Please Note:** This summer assignment leaves room for early advancement, meaning students should continue on past our minimum requirement of 24 additional topics. They will be even better off once the school year begins. It also counts as their first real Math grade.

**How Students can get help at Home:**

1) [www.khanacademy.org](http://www.khanacademy.org) : Has free instructional videos on many topics.

2) If students do not have internet access at home, computer time can be scheduled at your local library.

**How Students can get help in the summer at E.C. Goodwin:**

The library at E.C. Goodwin will be open (hours yet to be determined) and certified math teachers will be available to assist students. You will receive information regarding dates/times we will be open for math help at the end of the school year. Students who reach 70% mastery on any of the 6 goals prior to the beginning of the year may come to E.C.Goodwin during the summer hours to test..

Please stop by the Summer Math information table for more information!
